Tutorial 01

1. Using a for loop to display the price aligned with quantity as in below table. Consider price of a pen drive as Rs.1000.00

Quantity	Price(Rs)
10	10000
20	20000
30	30000
40	40000
50	50000

2. Display the table given in question 1,
   a. Using while loop
   b. Using do-while loop

3. Declare a variable to hold the value 20.
   a. Count down from 20 to 0.
   b. If the number is an even number, then print "**Even**", otherwise print "**Odd**" in front of the countdown number
